Subject: RE: Data tables of PFOS and PFOA values in our Region PWS's for the Record
Attachments: UCMR-3-Occurrence-Data.zip

Hi Lori,

Attached is the zip file posted at the Website. The file "UCMR_All.txt" contains the monitoring results for the 30 contaminants, including PFOA and PFOS.

Hopefully it will go through the mail.

Michelle

Thanks, Michelle. I appreciate your taking the time to convert the data to Pivot tables. However, we will not need to manipulate it or zone in for purposes of our administrative record; therefore, I would prefer to just have the data prior to the conversion. Are you able to pull the relevant Zip file for our facility and send me that as a screen shot or other format? If it is too extensive to include in our record, I will just include the relevant page(s).

Feel free to call me if you wish to discuss. I'm working at home today Ex. 6 Personal Privacy (PP)

Thanks again.

Hi Roger and Cheryl,

Here is the link and some explanations. Please let me know if you have any questions.

Thanks.

Michelle

Subject: RE: Data tables of PFOS and PFOA values in our Region PWS's for the Record

Hi Lori,

Monitoring results collected under the third Unregulated Contaminant Monitoring Rule (UCMR3) have been posted quarterly at the following EPA's

Website: <http://water.epa.gov/lawsregs/rulesregs/sdwa/ucmr/data.cfm>

What I did was converting the text files into Pivot Tables following the Data Summary format (also posted at the same Website) so that folks can easily zone in the data they need. Although the Pivot Tables have been shared among all Regions, they are not posted at the EPA's Website. Therefore, there is no direct link to the tables.

I hope the explanations are satisfactory to you. Please feel free to let me know if you have any questions.

Thanks.

Michelle

I am out of the office today
Please contact Michelle Hoover for the general link to the pivot table
She is copied here and extracted the Regional data for us
